

## VENUES

### The Mirage Volcano

---

A Las Vegas icon known the world over for its front strip attraction, The Volcano at The Mirage is one of the most unique and spectacular places in Las Vegas for a wedding.

Daytime weddings offer a serene and intimate tropical setting amidst the volcano's mountain, cascading waterfall and lagoon.

Celebrate the passion of your love by saying "I do" while overlooking the erupting volcano during an evening ceremony. Choreographed fire effects send massive fireballs more than twelve feet into the air with eruptions of fiery lava flowing down the mountain in a series of lively flames surrounding the lagoon.

### The Mirage Pool
